## Designing the Smile with the Patient

Please call to discuss when you receive the case. Snap-On Smile will add a minimum of .5mm - .75mm of buccal and lingual thickness and at least .5mm of occlusal thickness. DenMat sells a Snap-On Smile Starter Kit with a demo model and appliance designed to show patients exactly how this technology works.

### 1. Tooth Numbers

What tooth numbers does the appliance cover?  
Upper Appliance: Tooth# \_\_\_\_\_ to # \_\_\_\_\_  
Lower Appliance: Tooth# \_\_\_\_\_ to # \_\_\_\_\_

### 2. Tooth Length

Provide the desired length of teeth.  
**Discuss all of these options with the patient.**  
 #8 \_\_\_\_\_mm, #9 \_\_\_\_\_mm  
Design laterals \_\_\_\_\_mm shorter vs. the centrals.  
The average length for a central is 10-11mm.

#24 \_\_\_\_\_mm, #25 \_\_\_\_\_mm  
Design laterals \_\_\_\_\_mm shorter vs. the centrals.  
The average length for lower centrals is 7-8mm.  
Appliance will always add at least 1mm in length to natural teeth.

### 3. Alignment

- Enhance the Alignment (Lab default)
  - Enhancement is often the best choice vs. ideal alignment to avoid bulky and oversized teeth.
- Idealize the Alignment
  - All teeth are brought out to be in alignment with the most prominent anterior tooth. Caution: using the most prominent tooth as the guide can sometimes add too much bulk. Review the most prominent tooth and determine consequences of bulk to align. An improvement/esthetic enhancement may be the better choice.
- Keep Existing Alignment — keep bulk and size of the teeth to a minimum.

### 4. Occlusion

- Leave an anterior open centric — minimize lingual bulk on the maxillary teeth and/or lower anterior flare, thickness and length (Lab default).
- Establish or maintain anterior centric occlusion — this may cause the lingual of the anterior teeth to be bulky. When making an upper and lower appliance, the lower anteriors may have to be flared and lengthened facially to maintain centric occlusion, which the patient may not tolerate.

### 5. V.D.O. (Open Patient's Bite)

- Please design with posterior occlusal holes to minimize the bite opening. (There are limited cases where occlusal holes can be placed without weakening the appliance.)
- Yes, open the bite \_\_\_\_\_mm in the anterior or posterior (.5mm is the Lab default).

### 6. Shade

The DenMat Snap-On Smile® Shade Guide (P/N 040219712) is strongly recommended since it is made of the same material as the appliance. When using an alternative shade guide, the Lab will pick the closest corresponding Snap-On Shade, but it will not be an exact match.

- Pre-op Shade \_\_\_\_\_  
(If the requested shade is radically different from the patient's actual shade, the lab may need to thicken the appliance to mask it out.)
- Requested Shade. (Choose one option below)
  1. Snap-On Smile Shade Guide - Recommended (Circle choice)  
S1 S2 S3 S4 S5 S6 S7 S13 S20
  2. Vita Classic Shade: \_\_\_\_\_ (Will not be an exact match)

### 7. Shape

- Natural  Existing shape and form maintained, restoration that mimics nature (Lab default).
- Hollywood  Changes the original form and shape. Generally follows Golden Proportions.

### 8. Gingival Margins

- No changes — follow patient's existing tissue margins (Lab default).
- Lengthen the gingival margins on tooth/teeth # \_\_\_\_\_
- Stop at height of contour # \_\_\_\_\_

### 9. Extraction

- No extractions
- The following teeth will be extracted # \_\_\_\_\_

### 10. Pontic Design (Check one)

- Full Ridge (Lab default) 
- Saddle 
- Ovate 

### 11. Appliance Selection (Partial arch available for 5 or fewer teeth)

Edentulous spans with 2 abutments > 22mm and < 40mm (Full Arch)

Correcting severe buccal inclinations, misalignment, crooked teeth

Malocclusion, bruxers, multiple missing teeth, crossbite

Appropriate for certain Class III bites (underbites)

Embedded Implants (up to 3)

Limited retention: Master model may be altered to include retention buttons with corresponding stint

### 12. Teeth

Select the teeth to be included:

### 13. Additional Services

- I would like a Digital Preview — \$25 additional charge. Once approved, 5 days plus 2 days to ship.
- I would like a duplicate appliance at 25% off (order must accompany original case submission). Highly recommended for bruxers and excessive users. Plus 2 days to ship.
- Imbedded implant (up to 3) — \$50

Shipping and Delivery Options

All delivery days are listed in lab working days, starting from date of case acceptance (including acceptable impressions/models, bite registration, and complete prescription information). Working days do not include the date the case is shipped, time in transit, weekends or holidays. Outbound shipments require a standard \$15 U.S. flat fee per case.

STANDARD

10 working days, plus 2 days to ship

RUSH

Rush Fees — business days, not calendar days

5-day turnaround — additional \$104 per arch (Digital Preview not possible with this option), plus 2 days to ship.

Snap-On Smile Limited Warranty

Snap-On Smile® Limited Warranty

Den-Mat Holdings, LLC ("DenMat") warrants, for a period of six (6) months, from the date the original Snap-On Smile is received at the office of the prescribing doctor, that the appliance will be free from defects in materials or workmanship.

Please inspect the product and for the first 30 days, if you discover that the Rx, or an approved revision of your Rx, where changes made by you, an office representative and the lab, were not followed, the lab will repair or remake your restoration without affecting the warranty.

After 30 days, DenMat will, at its option, repair or replace a Snap-On Smile appliance that proves to be defective in materials or workmanship despite adherence to the original prescription instructions.

This Limited Warranty only covers defects in materials and workmanship to the original Snap-On Smile appliance, and does not cover breakage or loss during ordinary consumer use.

To obtain warranted coverage, please return all working models, previous impressions, and original product for evaluation. If a discrepancy arises you may be subject to additional fees.

Your Rights Under Country Law:

This warranty gives you specific legal rights and you may also have other rights which vary from country-to-country. Some countries do not allow the exclusion or limitation of incidental or consequential damages.

Our Contact Information

If you have questions or comments about our terms and conditions, we are here for you Monday through Friday from 6 a.m. to 5 p.m. (Pacific Time).

- 1. Email us at: lab@denmat.com
2. Call us at: 800-872-8384
3. Write us at: DenMat Lab, 1017 W. Central Avenue, Lompoc, CA 93436 USA, Attn: Lab Customer Service

We thank you for your business.
